

# In Him Week 4 Discussion Questions

Note: Catching up on class? These are meant to be answered BEFORE listening to week 4 of class, to help get the thought processes flowing.

1. How do humans generally identify themselves? What are some characteristics that we consider to be defining characteristics? There are huge debates raging in the world surrounding identity, right? What are some of the hot topics? How does God identify and define us? What about Himself? How does He define and identify Himself? What does HE consider to be important characteristics? Are they similar or different from what humans consider to be important? Why do you think God chooses the defining characteristics that He does?
2. Do you think the Body of Christ as a whole is living up to its potential on Earth? Why do you think that? In what ways do you think it might be lacking? What would it look like if it was? If you don't think we are reaching our full potential, what do you think needs to change?
3. Everyone agrees that The Church is here for a reason. That we have a purpose and a mission. Do you think that The Church is currently executing its mission well in our country? What about in the rest of the world? What specifically do you think we are doing well and what do you think we could do better?
